FOUR DTA STAFF MEMBERS NOW 'CERTIFIED GREEN PROFESSIONALS'

Dominick Tringali Architects is pleased to announce that in July, 2008, four DTA employees were recognized as 'Certified Green Professionals' through the National Association of Home Builders' 'Green Built Michigan' program. These four individuals have gone through extensive training and have passed exams which qualify them to specify green building practices on our construction documents. Several other DTA employees will begin the same training in the months to come as part of Dominick Tringali Architects' initiative to promote sustainable, healthy homes.
