Dominick Tringali Architects Begins International Renovation Project in Thailand

The Dominick Tringali Architects team is nationally renowned for its ability to create exceptional, timeless architecture. This time, our design abilities are being put to the test on an exciting, new international project. We are working on a renovation of an existing estate for one of the wealthiest textile moguls in Thailand. Our design team is adding on a 15,000 square foot ballroom to this residence, along with a formal, traditional Chinese dining area. We are renovating bathrooms and various living spaces within the home to make it more suitable for entertaining ambassadors, dignitaries, and various government officials, for which the homeowner frequently hosts events in his home. The entire family is quite philanthropic as well, hosting several large benefit events per year for charity organizations.

We are working on this project in conjunction with the talented group at Marc Michaels Interior Design, based out of Winter Park, Florida. Marc Michaels is consistently ranked one of the top 100 Interior Design firms in the world, by Interior Design Magazine. We are working exclusive with Marc Michaels on the architectural aspects of the project, and possibly some of their upcoming projects in the Middle East as well.

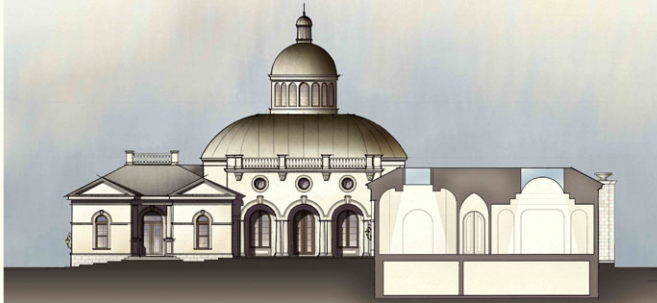

Dominick Tringali Architects is excited to add these projects to our growing list of international experience. We look forward to upcoming joint ventures with Marc Michaels and bringing our signature DTA flair and design ability to the International market.
