STACI MEYERS DESIGNS DISPLAY FOR PEWABIC POTTERY 'HOUSE & GARDEN SHOW'

May 9, 2011

Staci Meyers, Interior Designer for Dominick Tringali Architects, is one of two local designers invited to create a fireplace vignette show piece for Pewabic Pottery's 23rd Annual Fundraiser, "For the House & Garden Show – Design Challenge" this June. Staci will use Pewabic tiles to design a custom tile layout for the fireplace, as well as a vignette surrounding the fireplace. Her design will be enjoyed by over 3,000 attendees anticipated to attend this three-day sales event.

This year's design theme is "Hospitality," featuring the image of the pineapple. Pewabic Pottery has created new products focused around this theme, which will also be introduced at the event. The two designers can incorporate these new products into their design vignettes, or they can choose other ways to translate the pineapple theme into their space.

The event kicks off with an evening cocktail party on Thursday, June 2, and the sales event goes through June 5.
